

ORACLE OPTIMIZATION

Overview

With cloud technology and applications constantly evolving, it's important that you maximize the benefits of your Oracle investments. Sofbang provides a clear roadmap to help you understand current investments and make the most of every Oracle project. With a focus on value realization, Sofbang will uncover the business benefits and tangible ROI of a fully optimized Oracle implementation.

Solution Offerings

Deliverables

Immediate ROI

Our team will help your organization leverage Oracle in any of the following areas, through Sofbang's Solution Accelerators:

- Oracle Licensing Optimization
- Oracle DB, Integration & Apps Migration to Oracle Cloud
- Oracle Managed Services & Cloud Optimization
- IaaS & PaaS: Move, Improve & Extend

The Oracle Optimization Assessment with Sofbang includes a two day workshop, onsite or remote, in which Sofbang assesses the current and future state of Oracle implementation within your enterprise. Following the analysis of the assessment, an executive readout will be provided with a clear plan for achieving value realization in 2020.

In under **two weeks**, our assessment process will provide your business with a tangible blueprint on exactly how your Oracle investments can improve your business and reduce costs.
